

Cosmo Films Bags SIES SOP Star Awards 2025 for Innovative Packaging Materials

New Delhi, 07 March 2025: Cosmo Films, a global leader in specialty films for packaging, lamination, labelling, and synthetic paper vertical, has been honoured with the prestigious SIES SOP Star Awards 2025, further cementing its position as an innovative packaging solutions provider.

The SIES SOP Star Awards were instituted in 2017 to recognise the talent in the Packaging Sector for its continuous efforts in Innovation, Creativity and New Developments across various product segments such as Beverage, Food, Health & Personal Care, and Pharma among others.

The 8th Edition of the SIES SOP Star Awards witnessed an impressive participation of over 200 entries, with Cosmo Films successfully securing recognition in two critical categories under Packaging Materials & Components. The Company's two ground-breaking products that merited the awards are – **'Metallized BOPP For High-Speed Packaging'** and **'Next Generation UHB-HR MO' High Heat Resistance BOPP Film For Replacing METPET Mono Carton Packaging Application**.

Mr Pankaj Poddar, Group CEO, Cosmo First, commented on the achievement: ***"This prestigious award is a recognition of Cosmo Films' innovative packaging solutions. Both of our entries under the Packaging Materials & Components category validate our continuous commitment towards innovation and sustainability in the packaging industry. Our latest developments highlight our ability to create advanced solutions that address evolving market needs and environmental considerations. I'm thankful to the jury for their vote of confidence in us and for winning this very prestigious industry award."***

This recognition follows Cosmo Films' previous success at the SIES SOP Star Awards, strengthening the Company's reputation for delivering cutting-edge packaging technologies. The awards highlight Cosmo Films' strategic focus on developing products that not only meet but also exceed the usual industry standards.

Cosmo Films remains dedicated to pushing the boundaries of packaging technology, investing consistently in research and development to create eco-friendly, high-performance solutions for global brands.
